

Build and fly your own model airplane!

Ages 8-16

U Build It!
U Fly It!
U Take It Home!

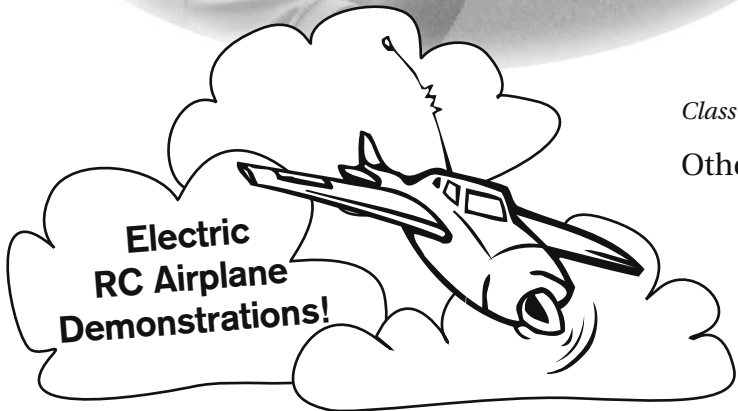

Learn valuable hands-on building skills and discover the world of model aviation!

This is a program where kids will have an opportunity to build and fly their own whip control model airplane. This is a great introductory class for young people to learn principals of flight while having lots of fun! If your child is interested in model airplanes, this is the class for them!

Class size will be limited to 10 participants.

Other program activities will include:

- Introduction to different types of Radio Control Aircraft
- Radio Control flight demonstrations
- Radio control flight simulation

Current Programs are listed below. We will also be bringing our program to various summer day camps in the Sacramento area. If you are interested, or have any questions, please call (916) 616-6856.

\$105 for a 3 session class.

Class fee includes materials for aircraft student will take home at the end of the session.
